

Are you losing your hair? Are your strands getting thinner? Is the part in your hair getting wider?

If you are suffering from embarrassing hair and scalp problems, you need to see a hair and scalp specialist. Men and women are suffering from thinning hair, hair loss, baldness, itchy scalp, dry, over-processed hair, dandruff, scaling and irritated scalp.

If you are experiencing any of these problems, call and schedule an appointment for a hair/scalp analysis and treatment with:

Leberta Jackson

RN, Certified Trichologist
